

Certificate of Identity

The bearer of this certificate has verified their identity using an original Government-issued Identity Document matched with a liveness-checked photograph. To protect the individual's privacy, they require you to lodge a request to access their details. It's free and convenient to make this request just click the button or scan the QR code below.

Click to Certify

How to certify

1. Request access to the individual's personal information using the button or QR code above.
2. Register your request (free) using a contact name, email, business name, and purpose.
3. Once permitted you can then access the required personal information.
